

See the right person

At the right time

Below we have tried to offer you some insight as to which Healthcare Professionals are working at the practice and what they can help you with, and will probably reduce your wait time to be treated if you don't need a doctor. This leaves our Doctors able to see patients with more complex medical ailments

Our **Nurse Practitioner Tegwen** is here to support our Doctors and will issue prescriptions. This leaves our Doctors able to see more patients with more complex medical ailments.

Tegwen can see and treat condition for eg :

- Coughs & Colds (Flu like symptoms)
- Sore throats
- Rhinitis
- Aches & pains
- Skin rashes
- Urinary symptoms, such as cystitis, blood in urine
- Earache
- Temperature
- Women's health
- Allergic reaction
- Skin infection
- Eczema
- Asthma/ chest infection
- Conjunctivitis

Our **Physician's Associate Jess** will also support the doctors and can see all of the above, as well. She cannot at the moment prescribe but will liaise closely with the GP for a prescription if needed.

Our **Practice Pharmacist Lisa**, who can also issue prescriptions, will see you for :

- Medication Reviews
- Hayfever and allergies
- Coughs and Colds (Flu like symptoms)
- Sore Throats, Earache and blocked nose
- Skin rashes
- Urinary symptoms, such as cystitis
- Asthma reviews
- Flu vaccinations
- Chest Infections
- Temperature
- Eczema
- Conjunctivitis
- Minor illness clinic on Thursdays

Our **Practice Nurses** can treat you for eg :

- Holiday vaccinations
- Reviews for Long term conditions – Diabetes/Asthma/COPD
- Removal of stitches
- Pill checks
- Dressings
- Cervical Screening - smears
- Depo Injections
- HRT checks
- Swabs

Our **Healthcare Assistants** will see you for eg :

- Blood test
- BP checks
- B12 Injections
- Weight check
- Reviews for Prelims – Diabetes/CHD
- Flu and Pneumonia Injections

By seeing the right person at the right time
you can reduce your wait for an appointment
